

REMARKS

Further consideration of this application is requested. Claims 8-11 remain active in the application. Of these, claim 10 has been allowed while claims 8, 9 and 10 are rejected over U.S. patent 5,438,150 to Bansal et al. Claim 8 is amended to exclude the compound of Molloy by adding a further "proviso" excluding (f) $R=R_1-F$ and $R_2=H$ to claim 8.

Applicants submit that the claims of this application are now in condition for allowance and that claims 8, 9 and 11 should also be allowed with claim 10.

Favorable action is solicited.

Attached hereto is a marked-up version of the changes made to the claims by the current amendment. The attached page is captioned "**Version With Markings To Show Changes Made.**"

Respectfully submitted,
